GOVERNMENT MAY TAKE TIENTSIN CASE TO HAGUE COURT

LONDON, AUG. 15 (REUTER)—REUTER LEARNS THAT THE CHINESE GOVERNMENT IS CONSIDER-ING TAKING THE CASE OF THE FOUR CHINESE PRISONERS IN TIENTSIN TO THE HAGUE COURT, on the ground that surrender will be a breach of Chinese rights under the Treaty of Tientsin since the Japanese-controlled courts in North China cannot be regarded as "Chinese authorities" within the meaning of the Treaty.

"Conciliatory Attitude"

PARIS, Aug. 15 (Reuter)—Commenting on the proposed handing over of the four Tientsin suspects the "Paris Midi" pays tribute to Britain's "concillatory attitude in trying "to solve the Tientsin incident by pacific means" and adds that despite this the Japanese military leaders are encouraging anti-British demonstrations.

SALVATION ARMY HIGH COUNCIL HOLD MEETING

ELECTION OF NEW GENERAL

For the third time, since the foundation of the Salvation Army by General Booth in 1865, the High Council of the Army met yesterday in order to elect a General. The meeting which is being held in the London suburb of Clapton is necessitated by the retirement next October of General Eva Booth, daughter of the founder, for the reason of advancing age and failing health.

The election arouses much interest since reform of the Army's organization; advocated in some quarters, may depend on its result The Army is still governed by Constitution given it by its founder and which confers absolute power on the General in all matters.

Advocates of reform would like to see these powers limited and the General's authority confined to the purely religious sphere while the administration would be entrusted to a Special Council presided over by the General - (Transocean).

Highly entertaining tennis was seen on the Hongkong Cricket Club ground yesterday when, by winning the mixed doubles and the men's doubles. Thailand won the three-day Interport with Hongkong, the scores thus far standing at four matches to nil. The last two singles will be played to-day,

The mixed doubles was the first match played. It started sensationally enough, the visitors running away with the first nine games! Just when it looked as if the home pair would have to suffer the indignity of a 6-0, 6-0 defeat, they managed to "break their duck."

SCIENTIST ROLE FOR KARLOFF

Eight years ago Hollywood "discovered" a tall, dark gentleman with a Russian name and an English accent, who, paradoxically, had been appearing in motion pictures and on the Los Angeles stage for eleven years. The gentleman was Boris Karloff.

Although he had played countless minor roles and was in demand for his flawless characteriza. tions, Karloff attracted little attention until Columbia engaged him to play a featured role in "The Criminal Code." Overnight he skyrocketed to stardom

Last week, Karloff returned to Columbia "Studios to play the starring role in "The Man They Could over Not Hang," portraying a kindly film, scientist, whose love for humanity just turns to hatred when convicted which is brilliantly performed if which he is not crime of guilty.

THE STORY The story concerns the scientific

theory and experiments recently proadcast and printed throughout the world, that the dead can be brought back to life. Convicted and hung for murder, the scientist is revived through, his own discovery and wreaks revenge on the men who sentenced him to death. the supporting cast of the thrilling melodrama is Roger Pryor, Robert Wilcox, Lorna and Joseph de Stedani. The pic- piness" and "Bachelor Mother." being directed by Nick Grinde under the supervision of Wallace MacDonald.

AT THE KING'S: "BOY MEETS GIRL"

Reunited after a screen separation of almost three years since they made "Celling Zero," James Cagney and Pat O'Brien are costarred in "Boy Meets Girl," the Warner Bros, comedy about Hollywood which opens to-day at the King's Theatre.

Teamed before in pictures which were mainly grim and serious, Jim and Pat on this occasion played their roles entirely for amusement value, for the first time in their careers, they put on a lampooning show of two typically wacky Hollywood writers.

In "Boy Meets Girl," they head a cast which also includes that pretty, blonde comedienne, Marie Wilson, in her first leading rolesaid to be a "natural" for her slumped rather badly this season. OVER OF TEMPERATURE RISING DANZIG: MUCH DIPLOMATIC "Last Warning To Democracies" China War:

VX/ARSAW, AUGUST 15 (REUTER)-MUCH DIPLOMATIC ACTIVITY IN THE PAST FEW DAYS INDICATES THE RISING TIDE OF TEMPERATURE IN THE DAN-

ZIG SITUATION. The British Ambassador, Sir Howard William Kennard, conferred for some time yesterday with Col. Josef Beck, the Polish Foreign Minister, who also had a talk with

the French Ambassador, M. Noel. Discussions followed a meeting between Col. Josef Beck and the United States

Ambassador, Mr. Biddle, on Sunday. Information concerning the talks is not available, but it is presumed that the latest stage of the Danzig dispute was examined.

Frequent conversations of the same order are expected during the period of European tension now generally anticipated here. Col. Beck also received the Papal Nuncio yesterday.

LATEST DEVELOPMENTS

Yesterday's developments include the arrest of two Polish Customs officials who were apprehended on a charge of conniving at introducing anti-Nazi leaflets into

DANZIG PROBLEM AND ITALY

ROME, Aug. 15 (Reuter)—Italo-German solidarity, over Danzig is emphasized in all the newspapers, the "Giornale d'Italia" says: "The Democratic press hypocritically pretends that as Italy has no interest in Danzig, she does not risk war over a cause which is not her own, but the problem of Danzig is for Italy what Italian claims are for Germany.

" Have they not yet understood in Paris and London that the Axis has only, one policy?

"French and British hopes of separating Italy from Germany and reducing Danzig to terms of an exclusively German problem must have vanished to-day."

The Giornale d'Italia" describes the Salzburg meeting as "a last warning to the Democracies, who are encouraging Poland to provoke Germany."

LONDON, Aug. 15 (Reuter) concern it, is not so menacing -Polish circles in London regard the proposals for the settlement of the Danzig question as a German kite to discover Polish reaction." It is emphasised that any such proposals cannot be seriously considered.

AMERICA WAS NOT ASKED

WASHINGTON, Aug. 15 (Reuter) -Asked yesterday whether either Britain or France had, during the past week, invited the United States to participate in a conference for disarmament and the redistribution of raw materials, Mr. Sumner Welles, acting Secretary of State, replied emphatically that so approaches had been made either directly or indirectly.

The question was prompted by the widespread reports in the American press of an alleged appeasement plan said to have concocted by Count Clano and Herr von Ribbentrop during their weekend talks.

NOT WORTH WAR

Informed quarters here are inclined to give credence to the press assertions that the Salzburg conversations led to the conclusion that Danzig was not worth a war. Reports that Signor Musso-

lini desired an Anglo-Polish-French conference with the Axis for a settlement of all problems is characterized as merely the old Four-Power formula, with the victims invited this time for appearances sake.

He declared that one of the measures that would probably be taken would be the expulsion of all British nationals from North China, including Peiping, "provided that such a measure should be desired by the Chinese population. Actually the country needs 600,-000 lbs. to give proper medical treatment to her 100,000,000 malaria victims. The scheme has been drawn up

by an expert investigating the moribund Indian quinine industry. While no great reduction in the cost of quinine is foreshadowed the figures show that in suitable areas quinine can be produced in India at world market prices

JAN.-MARCH 8-9/16 8-5/8 8~5/8 " Market steady but quiet. Rubber stocks held in the United Kingdom for the week ending

NEW YORK COTTON Limited buying by the Trade furnished demand which was offset by hedging and realizing sales. The market technically has improved and liquidation is believed to have about run its course. Opinions regarding the immediate trend outlook are very mixed. Some quarter's opinion holds that with an apprehension over the aim of recent legislation to increase the movement of American cotton to foreign markets and to avoid any further accumulation against loans, foreign consumers will be less inclined to buy for forward delivery on prospect of the possibility of cheaper 'basis' cotton later on. Therefore it is difficult to foresee active buying at the current price level to take the increased volume of hedges, unless anything unexpected occurs to change the existing conditions. While the other opinion is that the continued tightness of contracts, together with the more constructive governmental policy, should maintain prices on a very steady level, especially in the near months. We think October and December deliveries will firmly maintain their. premiums, possibly later widening further from distants, but for long pull range, would prefer purchases May delivery;

NEW YORK BUBBER

The market here opened higher on better advices from the primary markets and prices later advanced on trade and factory demand together with further reports of firmness abroad. The remarkable steadiness during extended periods of uncertainty and market duliness is impressive.

CHICAGO WHEAT

The undertone of the market was firm. With the result of the constricting effect of the loan, nearby positions have strengthened. Domestic demand reflects the strength of cash markets. The Canadian market has shown a little improvement following the strength of foreign markets." Liquidation has about run its course, but new features are needed to change the existing conditions.

SEA-DOG

SERVED UNDER SIX CAPTAINS

A real British sea-dog is Ginger, a canine waif of the waterfront who was taken aboard the British PAID-UP CAPITAL \$40,000,000.00 tramp steamer Inverbank as puppy 12 years ago.

Owing to our numerous Branches Since then Ginger has served in China and connections in the under six captains and travelled principal Commercial Centres of 750,000 miles. The dog has never the World, we are able to extend set foot on shore since he joined the ship.

BRITAIN'S POLICY IN FAR EAST

ASSURANCES GIVEN TO GEN. CHIANG

LONDON, Aug. 1 (By Air Mail)-A clear analysis and reaffirmation of the Government's policy towards China has been sent to Sir Archibald Clark-Kerr, the British Ambassador, for transmission to the Chinese" Government in Chungking.

It includes points from Mr Chamberlain's speech yesterday and puts them perhaps even more fully: it shows that the British attempt to face facts in North China means in no way that our policy in China is being altered or-to put it bluntly-that China is being let down. The policy will be continued.

Decisive Stage" In London it is recognized that Tokyo negotiations reached a decisive stage." currency demands raised by the Japanese cannot be accepted by Great Britain. "Other Powers are equally concerned and are being informed of all that passes during the negotiations.

France has now assured British Government that she fully appreciates both our difficulties in the Far East and the magn tude of the issues involved, economic and strategical; in fact. may be considered certain Anglo-French cooperation will interest allowed at rates obtainable no less close in the Far "East than it is in Europe.

The United States, Government have shown their mind in the matter by denouncing their trade treaty with Japan. What further measures America may take is the concern of her alone.

Parallel Lines In London there is no attempt to anticipate them or even to expect any. All that is said is that the British and American lems run on broadly parallel lines. No instructions have yet been sent to Sir Robert Craige in Tokyo.

In reply to questions in the House yesterday. Mr. . Chamberlain said no more about the possibility of a British denunciation of our trade treaty with Japan than that all things were being considered. The closest contacts, he added, were being maintained with the Dominions.

Snangnai Wai Anniversary Observed

PROPAGANDA WORK IN COUNTRY

CHUNGKING, Aug. 14 (Central)—The second anniversary of the Shanghai hostilities was solemnly observed throughout the country yesterday.

In Chungking, a group of people from various walks of life held a dinner party, to which Gen. Chang Chih-chung, formerly commander of the Chinese forces fighting in the Shanghai area, was invited to attend and to give a talk on his war experiences.

Some 40 publicity corps formed by various organs went to the countryside and did propaganda work All the newspapers here published supplements in commemoration of the occasion.

Quiet to Shanghai

In Shanghai, the day passed quietly with no untoward incident happening. Most of the Chinese people there took a vegetable diet and many shops and amusement establishments closed their doors for the day.

Beveral shops in Nanking Road, the busiest area in the city, displayed the National flag, but later lowered them down upon persuasion by the Settlement Police. forms for commemorating occasion were conducted by the people in Kweiyang, Kweilin, of the eggs which are of aviary-Kunming and other cities

BLACKBURN SKUA FIGHTER DIVE-BOMBER PLANE FOR AIRCRAFT CARRIERS

Performance details have now been released of the Blackburn Skua fighter dive-bomber, the first allmetal monoplane to go into service in the Fleet Air Arm. The Skua already equips naval air squadrons and will arm squadrons which are to serve in the new aircraft carriers.

A crew of two is accommodated inside a long cockpit which juts up well above the fuselage to give the pilot a clear view ahead, a necessary adjunct for flying on and off the carrier's deck and for dive-bombing.

Two Gnises The powerful monoplane pears in two guises. It may serve as a dive-bomber or a two-seat fighter, appropriate variations equipment being made for alternative duties.

As a two-seater fighter is carries a battery of machine guns mounted in the leading edge of the wings and ranged to bring a concentration of fire on an enemy ahead. This version is fitted with a poweroperated gun turret amidships and is called the Roc.

As a dive-bomber the Skua able to carry a formidable bomb a streamlined recess under fuselage Diving steeply near-vertical angle which would considerably increase the difficulties of anti-aircraft fire, the pilot steers his craft towards the enemy target and at a suitable height releases his bomb with shattering effect directly on to the objective.

Military Air Transports Of Britain

Rush requests for air conveyance of troops, urgently needed stores on for assistance by bombing attack are the three main active service calls which the Bristol Bombay allmetal monoplane is designed to answer. Performance of the Bombay, indicates that Boyal Air Force squadruns re-equipped with these powerful craft are likely to possess a special military significance. Keynote of the Bombay is ver

satility of employment which springs from its spacious fuselage dimensions. From nose to tail the Bombay extends some 70 feet Inside accommodation can be arranged for no less than 24 fullyarmed troops—with all their war accoutrements to be ferried on military missions. Particular design of the ruselage framing the entrance doors permits ready ingress of bulky goods.

Heavy War Load Such items as spare engines, which might be needed for quick installation in aircraft "in field" on active service; can be readily accepted. Stretcher cases can be admitted to the fuscinge with a minimum of inconvenience to the wounded.

As a bomber, the Bombay can arry a heavy war load over considerable distances. At economical cruising speed it has a maximum range of 2,500 miles From bases well removed from the front line danger zone Bombay equipped squadrons could provide vita means of supply and communication over terrain virtually impassable to ground transport "Few The eggs have just arrived by mountain ranges would set up reach a height of 21,800 feet carr ing full war load.
